Future Vision Laser Center
40 South Clay Street, Suite 9W
Hinsdale, Illinois 60521

To The Future Vision Family:

To echo the classic song: *"What a difference a DAY makes, twenty-four little hours...!"* And to be factual, it didn't take **that** long! On the afternoon of June 27th, I came to Future Vision and underwent a Lasik procedure. By the morning of June 28th, I was seeing things clearly for the first time in **thirty** years without wearing eyeglasses! The change has been amazing.

None of this could have been possible without all you wonderful people at Future Vision Laser Center. From my initial examination to my post-op visits, every member of your staff has been helpful, insightful, cheerful and professional.

And let's not forget **skillful!** Dr. Richard Foulkes is awesome! He spoke to me in depth before, during and after my surgery. It was so reassuring to hear Dr. Foulkes explain to me what he was doing during my Lasik procedure. He made sure to ask me if I was comfortable and answered any questions I had. I also was pleasantly surprised at how quickly the Lasik was performed.

Since my Lasik procedure, I've stopped counting the number of times I've caught myself thinking: *"Hey, I can SEE that without my glasses!"* As an unexpected bonus, many co-workers, friends and family members have complimented me by saying that my face looks **nicer** without my eyeglasses!

Thirty-year-old habits are hard to break. I still occasionally find myself looking for where I put my glasses, or pushing my index finger against the top of my nose to re-position my glasses. My son Michael said he's glad I had the Lasik procedure because now he doesn't have to worry about breaking my glasses when we wrestle!

I believe that when you have good news, you have to share it. That's why I've been telling listeners on air and people off air about Future Vision Laser Center. To change that song a little: *"What a difference LASIK makes, in LESS than twenty-four hours!"* Thank you all for all you do.

God Bless!
